### **DETAILED ACTION**

This application is in condition for allowance except for the following formal matters:

#### **IN THE DRAWING:**

- Figures 1-2 should label as Prior Art,
- Figure 7b, delete the bottom reference number '720'.

#### **IN THE SPECIFICATION:**

- Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to *a single paragraph* on a separate sheet within the range of *50 to 150 words*. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

***Allowable Subject Matter***

Claims 1-29 are allowable over the prior art of record because none of the prior art whether taken singularly or in combination, especially when these limitations are considered within the specific combination claimed, to teach: a ferroelectric memory device comprising: one or more control circuits, among others as claimed in independent claim 23, connected with an output of a calibration memory for applying an adjustment of one or more parameter values of at least one voltage pulse protocol parameter. Method for operating the ferroelectric memory device comprising step of adjusting one or more parameter values of at least one of selected pulse protocol parameters in accordance with at least one correction factor, and among the respective steps as claimed in independent claim 1.

***Conclusion***

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Takata et al. (5,777,921) disclose a nonvolatile semiconductor memory comprises a capacitor sandwiching a ferroelectric memory.
